

## WIRE MESH BELT BLAST MACHINE RSAB

### All benefits at a glance

- ▶ Gentle and all-round processing of complex components in a single pass
- ▶ High throughput performance thanks to continuous blasting process
- ▶ Integrated anti-static spray system
- ▶ High process consistency thanks to automatic monitoring systems (e.g., drives) and automatic blast media replenishment systems (e.g., blast media)
- ▶ Optimum, multi-stage blast media cleaning via blast chamber extraction, screening systems, and cascade air separator
- ▶ Modern PLC control with storable recipes
